

MARK ALMOND

**Senior Technical Property Risk Engineer
Zurich Resilience Solutions**

Mark Almond is a senior technical property risk engineer with over 30 years' experience in the fire safety and insurance sector and has extensive knowledge in fire, insurance risk management and project management. He is currently seconded to the ZRS technical team to oversee, design and deliver a training and development pathway for property risk engineers. Prior to his employment with Zurich, Mark completed 23 years in the Royal Air Force Fire & Rescue Service completing many operational tours including, Falkland Islands, Bosnia, Kuwait, Iraq and Afghanistan. Mark continues to teach and support Risk Engineers through their learning to complete the Institution of Fire Engineers examinations as well as applications for Engineering Technician.
